GLOBAL ENTERPRISE SECURITY AND EXPENDITURE POLICY

Document Code: POL-SEC-EXP-2026

Section 1: Corporate Travel and Daily Expense Limits

Employees traveling for official business are allocated a daily per diem allowance of $120 for meals.

Hotel lodging must not exceed $250 per night in standard tier cities or $350 in high-cost metro areas.

Section 2: Capital Expenditure and Procurement Procedure PROC-889

Under financial procedure PROC-889, all standard departmental operational purchases under $10,000 require only direct Manager approval. Purchases between $10,000 and $50,000 require Department VP approval.

Any capital expenditure exceeding $50,000 strictly requires explicit CFO and Finance Committee sign-off.

Purchases initiated without prior written authorization are subject to audit and non-reimbursement.

Section 3: Information Security, Remote Work and Device Compliance

All enterprise laptops and workstations must enforce full-disk BitLocker or FileVault encryption.

Remote network connections to corporate production clusters must transit the GlobalProtect VPN tunnel.

Corporate user credentials must adhere to NIST 800-63B standards with mandatory MFA enforcement.

Passwords must be at least 16 characters in length and rotated every 90 days across all privileged accounts.

Section 4: Data Classification and Incident Reporting

Customer PII and confidential IP must never be transferred to unapproved external cloud storage.

Security incidents, lost hardware devices, or suspected phishing attacks must be reported immediately to the 24/7 Security Operations Center at soc@enterprise.nexusai or extension 4357 within 1 hour.
